Interactive Resources

The school now has access to an online resource called Interactive Resources. The logins and password information is stored below. Once children access the site, they just need to click on the folder that matches with their year group. The year group lead has selected content and games which are appropriate to the specific year group. Once logged in please click on the year group folder on the left hand side.

! Please note - these are not active email addresses. They are simplified email addresses that enables us to share them for login purpose.
